PROFILE

Junior Full Stack Developer, recently graduated from OFPPT in Web Development, with solid experience in React, Laravel, and MySQL. I have contributed to the development of complete web applications (front-end & back-end) through several internships and practical projects. Motivated, detail-oriented, and results-driven, I am seeking to join a company where I can strengthen my technical skills and deliver real added value.

PROFESSIONAL EXPERIENCE

Full Stack Developer – Med You In (Internship) **October 2025 – decembre 2025**

- Development and maintenance of full-stack web applications using PHP, Laravel, and MySQL.
- Design and integration of modern, responsive, and high-performance front-end interfaces.
- Performance optimization, bug fixing, and adherence to best practices (MVC, clean code).

Full Stack Developer – Yonetwork (Internship) **July 2025 – August 2025**

- Development of a web application for employee attendance management using QR Code.
- Implementation of the front-end using React.js and the back-end using Laravel via RESTful APIs.
- Collaborative teamwork using Git and GitHub, following professional development workflows.

Full Stack Developer – OSI Software (Internship) **February 2025 – March 2025**

- Development and integration of full-stack features using React and Laravel.
- Collaboration within a remote team and source code management using Git/GitHub.
- Application of development best practices and professional standards.
